Article III

Shall the voters authorize bonds of the Brandon Town School District in an amount not to exceed One Million Seven Hundred Thousand Dollars (\$1,700,000) be issued for the purpose of converting the Neshobe and Forestdale School Buildings to a pellet boiler system with the optional natural gas converter, installing digital controls, and improving ventilation units and insulation?

There are no school projects eligible for Vermont school construction funds as the legislature had not appropriated any resources for school construction. However bonding statute still requires the following notice to be included on the warning:

State funds may not be available at the time this project is otherwise eligible to receive state school construction aid. The district is responsible for all costs incurred in connection with any borrowing done in anticipation of state school construction aid.
