Would like to continue the process of his permit that was approved previously.

They are pretty well under way on the project and there are no changes to the permit.

Within 6 weeks the project will be done.

There is only a certain time that the construction can happen in the river which is June 1 to October 15th.

The application fits the zoning requirements for the extension. This is a good application for the extension and Robert has done all that he can do with the weather and the neighbors.
