

## BRANDON FIRE DISTRICT NO 1

58 Franklin Street

Brandon, VT 05733

[rcounter@brandonfiredistrict.org](mailto:rcounter@brandonfiredistrict.org)

(802)247-3311

## WATER SHUTDOWN

Water service will be off on Friday, August 9, 2024, on Grove Street at approximately 8:00am for an emergency repair. **The service area that will be affected includes #13, #14, #16, #18, #20, #21, #22, #24, #25, #26, #27, #28, #30, #230, #232, #256 Grove Street & #18, #20, & #30 Farr Way. There is no estimated time for water restoration at this point. Customers should plan to be without water for most of the day. Traffic on Grove Street will be reduced to one lane in the work area and delays are expected. *Please drive with caution and use an alternate route, if available.***

The shutdown could produce temporary discoloration, but water quality should not be affected. We advise all users to schedule clothes washing and other cleaning projects at other times. Upon restoration of water service, please let your water run for 10-15 minutes before using or longer if it appears dirty or cloudy. The best place to flush your water is through an outside spigot or from your tub faucet.

Questions may be directed to the Fire District office at 247-3311 or email us at [rcounter@brandonfiredistrict.org](mailto:rcounter@brandonfiredistrict.org).
